
February 2024 Saint Louis University/YouGov Poll Results

Margin of error for survey results for the full sample is 3.74%.

uestions asked to subsamples are listed below where available. Original data SLU Poll Directors are available at http T://www.slu.edu/poll.

pport

U/YouGov Poll was funded by the PRiME Center, an independent research LU's School of Education.

s University

Louis University is one of the nation's oldest and most prestigious Catholic Jesuit values and its pioneering history as the rst u niversity w est o f the o ers more than 13,500 students a rigorous, transformative education of the ore of the University's diverse community of scholars is SLU's service-focused ges and prepares students to make the world a better, more just place.

d Weighting

135 Missouri (MO) registered voters, with the goal of screening for and sur- voters. The Missouri registered voters were then matched down to a sample et subsample of 900 likely voters including 450 from

Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, and 2020 presidential vote. The propensity scores were grouped into deciles of the estimated propensity score in the frame and poststrati ed according to these deciles.

The weights were then post-strati ed on 2020 presidential vote choice as well as a four-way strati - cation of gender, age (4-categories), race (3-categories), and education (4-categories). The weighted dataset of registered MO voters was then subsetted on likely MO voters, and the weights were trimmed and recentered around 1, to produce the nal weights for likely Missouri voters.

Poll Questions and Page Numbers for Results

Do you approve or disapprove of the way each is doing their job...Joe Biden? 7
Do you approve or disapprove of the way each is doing their job...The US Congress? 8
Do you approve or disapprove of the way each is doing their job...The US Supreme Court? . 9
Do you approve or disapprove of the way each is doing their job...The Missouri State Legislature? 10
Do you approve or disapprove of the way each is doing their job...Governor Mike Parson? . 11
Do you approve or disapprove of the way each is doing their job...Senator Josh Hawley? . . 12
Do you approve or disapprove of the way each is doing their job...Senator Eric Schmitt? . . 13
If the election for Governor of the state of Missouri were being held today, who would you vote for? 14
Which of the following Republican candidates for Governor would you be most likely to support? 15
Which of the following Republican candidates for Governor would you be most likely to support?
Only voters who said they would support a Republican candidate in the general election. 16
Which of the following Democratic candidates for Governor would you be most likely to support? 17
Which of the following Democratic candidates for Governor would you be most likely to support?
Only voters who said they would support a Democratic candidate in the general election. 18
Which of the following do you think should be the TOP priority of the Missouri state government? 19
How would you rate the following...The Economy in the United States? 20
How would you rate the following...The Economy in the State of Missouri? 21
How would you rate the following...Public Schools in your community? 22
How would you rate the following...Public Schools in the State of Missouri? 23

Local school districts receive local, state, and federal funding. State funding in Missouri is primarily determined by a funding formula. Do you agree or disagree that this funding formula should do the following...Provide more funds for each student who is learning English as a non-native language? 49
The state of Missouri's school funding formula is partly determined by how much funding the state expects school districts to receive from local revenue (such as property taxes). To make this estimate, the current formula uses 2004 property values. Should the school funding formula use 2004 property values or more recent property values (such as those within the last 5 years) when making these estimates? 50
Do you support or oppose the following policies...Allow students to enroll in public schools outside of the school district where they live? 51
Do you support or oppose the following policies...Allow students to enroll in public schools, excluding charter schools, outside of the school district where they live? 52
Do you support or oppose the following policies...Allow students enrolled in a district's schools to remain in that district's schools for the complete school year, even if they move out of the district during the school year? 53
Do you support or oppose the following policies...Allow students enrolled in a district's schools to remain in that district's schools until they graduate high school, even if they move out of the district? 54
If Missouri allows students to enroll in public schools outside their residential school districts (that is, the district where they live), indicate whether you support or oppose the following...School districts may limit the number of students who transfer out of their district? 55
If Missouri allows students to enroll in public schools outside their residential school districts (that is, the district where they live), indicate whether you support or oppose the following...School districts may opt out of having students transfer into their districts? 56
If Missouri allows students to enroll in public schools outside their residential school districts (that is, the district where they live), indicate whether you support or oppose the following...School districts must accept transferring in students who have special education needs? 57
If Missouri allows students to enroll in public schools outside their resident school districts (that is, the district where they live), indicate whether you support or oppose the following...School districts must accept transferring in students who have special education needs only if the receiving school district determines it can provide appropriate special educational services? 58
If Missouri allows students to enroll in public schools outside of their resident school districts (that is, the district where they live), how should local tax revenue designated for a student's education be allocated for students who attend school outside of the district where they live? 59
If Missouri allows students to enroll in public schools outside of their resident school districts (that is, the district where they live), indicate whether you support or oppose the following...Transferring students or their guardians should be responsible for transportation to and from nonresident districts? 61

If Missouri allows students to enroll in public schools outside of their resident school districts (that is, the district where they live), indicate whether you support or oppose the
